

STEP 1: GATE OPENING

Press ON, enter the gate access code, and then press OK

STEP 2: DOOR OPENING

To open the door, press the button , enter the door code, and then press the button. 

The keypad will emit a sound indicating that the door is unlocked. Gently pull the door towards you and then push.

STEP 3: ROOM OPENING/CLOSING FROM OUTSIDE

To open, enter the room code. To close, press the arrow. ◀

STEP 4: ROOM OPENING/CLOSING FROM INSIDE

To lock the door from the inside, simply press the button in the center.

IN CASE OF NUKI SYSTEM LOCKOUT (THE ONE ABOVE),
USE THE SMART LOCK.

- 1) Ensure that the Nuki code is correct, and the door is in the unlocked state.
- 2) Enter the EMERGENCY code for the SMART LOCK, which you can find in the message with the various door steps.
- 3) Once you have entered the correct code, the SMART LOCK will turn green, and you should pull it towards you using the tabs located at the top.
- 4) Use the key inside to open the door and close the SMART LOCK.
